PROJECTS

EARBUDS
earbuds.web.app | May 2020
Interactive web app for friends to listen to podcasts together in real time
- Developed in team of four with Firebase, React, and Material UI
- Used Spotify Web API and Playback SDK to create integrated web player and control playback centrally

PLANT STORE
grace-shopper-argon.herokuapp.com | April 2020
E-Commerce site for shoppers to browse items and checkout with Stripe
- Built with team of four, using Express, PostgreSQL, Redux, and Ant Design
- Designed and implemented product view, along with customer and admin account dashboards

MYTINERARY
April 2020

Web-based trip planning tool for groups of travelers to streamline expenses
- Created with Express, PostgreSQL, Redux, and Ant Design
- Worked as sole developer to build out and design full stack web application

EXPERIENCE

PRESCOTT LOGIC
Chief of Staff | October 2017 – December 2019
- Reported directly to Founder to manage day-to-day operations of US and Canadian-based cannabis distillation equipment company and consultancy, overseeing all functions: sales, marketing, accounting, and legal support
- Set direction and executed company vision and goals, sales/pricing strategy, and company policies, overseeing 2X increase in headcount and six product launches during tenure
- Directed sales operations and post-sales support for $4MM in equipment revenue across eight states/provinces
- Evaluated and negotiated consulting contracts around lab design and formulation R&D totaling over $1.1 MM

HURON CONSULTING GROUP
Higher Education Analyst | September 2016 – June 2018
- Developed improved operating model for large public research university and health system, interviewing over 30 faculty members across academic and admin functions to understand gaps in Payroll/HR business processes
- Served in key analyst capacity for ERP system upgrade at leading Midwestern children's hospital, mapping over 180 integrations between system modules and external/internal vendors in comprehensive inventory
- Supported testing phase of cloud system implementation at major private Southeastern research university, building project management dashboard to streamline test script development and tracking

AMIGOS DE LAS AMERICAS
Project Supervisor | June – August 2013
- Directed volunteers living in three rural communities in Paraguay to design youth development initiatives
- Collaborated with local and regional non-profit organizations to facilitate training and emergency procedures
- Secured grant and donations from local organizations, increasing project budget in one community by 150%
